breathe

# breathe - Task / operator seating with 'active mesh'

Conceived with comfort in mind, Breathe offers generous upholstery combined with sophisticated engineering to provide the ultimate in operator seating..... at a realistic price point.

A deluxe 'active' mesh back provides luxurious, yet responsive support, able to adapt to each user's back, offering high levels of seating comfort. A smooth, robust, point synchronised seat and back movement, which may be set in a free-float mode to allow dynamic support, lies at the heart of this chair collection.

Seat depth adjustment is standard on all chairs, as is a 'positive' forward tilting seat providing superior ergonomic posture control, while height adjustable arms complete this robust and versatile seating solution.

the option of a positive forward tilting seat is standard on all chairs

seat depth adjustment

fingertip controls

adjustable arm

Simple finger-tip adjustment ensures that the perfect posture can be achieved from the seated position, while seat depth adjustment and height adjustable or fixed arms enable the Breathe chair to be 'tailored' to your exact requirement.

Durability is guaranteed with the use of a robust mechanism, which has been tested to 'severe' contract use, under BS 5459:1990 part 2: test level 'S'.

The seat pad may be removed and recovered or replaced easily and cost effectively, extending the life of each chair.

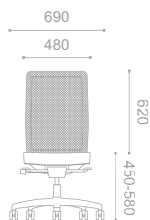

All chairs are manufactured under the stringent BS EN ISO 9001:2000 Quality Assurance Standards and BS EN ISO 14001:2004 Environmental Management System, ensuring a dependable quality that you can trust, together with a gentle environmental footprint.
