

box-it landscape – site assembly / screens and linking

All SINGLE BACK units are supplied fully assembled – screens fitted, when ordered.

All DOUBLE BACK units are supplied KD – screens fitted to double back section, when ordered.

CORNER and TEE units are supplied fully assembled – screens NOT fitted, when ordered.

screen linking

Each screen is supplied with a linking spigot. Simply locate the spigot into one side of the screen and close the next landscape unit onto it.

CORNER and TEE screens

Remove the transit screws and screw in the spigot making sure that the washer supplied is fitted, to protect the fabric. ... then locate and drop the screen onto the spigots and link, as above.

unit linking

Each Landscape seating unit is supplied with Velcro linking tabs, positioned in front of each foot – front and rear. If being used, release the tab push units together, pull tightly and locate.
